EDUCATION

B.E, Electronics and Communication Engineering   Dindigul, TN | May 2020
S.B.M College of Engineering and Technology

WORK EXPERIENCE

SIVACERULEAN TECHNOLOGIES | iOS App Developer   IOS App Developer, TN | Aug 2024 – Present
- Leading the redevelopment of a **Bank Employee App**, migrating from **UIKit MVC** to **SwiftUI + MVVM**.
- Sole developer managing coding, testing, and publishing on the **Test Flight and App Store**.
- Built workflows such as **Loan Calculation, Real Time Chat, Circular Module, Exam Module, Visit Module, and Offer Module**.

ZAAR TECHNOLOGIES | iOS App Developer   Tiruchirappalli, TN | May 2024 - Aug 2024
- Developed a complete **E-Commerce** iOS application using SwiftUI with **Blockchain** api integration for secure.
- Focused on UI responsiveness, state management, and API optimization.
- Collaborated with backend teams to ensure data security and real-time updates.

TRIOANGLE TECHNOLOGY | iOS App Developer   Madurai, TN | Nav 2021 – Apr 2024
- Developed and maintained multiple on-demand and **E-commerce iOS applications** using Swift, UIKit, and Xcode.
- Built scalable, feature-rich applications with **RESTful API, Firebase, payment gateway, and multi-language support**.
- Delivered production-ready apps across multiple verticals: **Taxi Booking, Food Delivery, Room Rent, Space Rent, and Car Rental**.
- **Managed version control, testing, and deployment** for all projects.

PROJECTS

SIVACERULEAN TECHNOLOGIES (NEXT PEAK || MUTTASIL) ↗   (SwiftUI, UIKit, REST API, Firebase, Google Location, Swift Data, MVVM, SSL pinning, async/await, Combine, GCD).

- **Sole developer** managing coding, testing, and **publishing on the App Store**.
- Built workflows such as **Loan Calculation, Visit Module, and Offer Module**.
- Implemented **common API services, centralized localization**, and **SwiftData caching** for faster API response.
- Resolved **crashes and memory leaks**, ensuring smoother **performance and reliability**.
- Integrated **Firebase Crashlytics** and real-time logging for **analytics and debugging**.
- Enhanced UI with custom SwiftUI components, **Dark mode**, and **Responsive layouts** for **Iphone** and **Ipad**.

ZAAR TECHNOLOGIES (DEMOCRACY) ↗   (SwiftUI, REST API, Animations, Blockchain Api calling)

- Developed a complete **E-Commerce iOS application** using **SwiftUI with blockchain** integration for secure transactions.
- Focused on UI responsiveness, state management, and API optimization.
- Collaborated with backend teams to ensure data security and real-time updates.

TRIOANGLE TECHNOLOGIES ↗ (UIKit, REST API, Firebase, Google Maps, Push Notification, MVVM and MVC, Payment Gateways)

- Gofer – On-demand **service booking app** with **live tracking** and **secure payments**.
- Gofer Delivery / Gofer Delivery All / Gofer Jek – Multi-service delivery platforms (food, parcel, grocery).
- Makent / Makent Space / Makent Cars / Makent Boats – Rental marketplace apps for **property, space, car, and boat sharing**.
- CliqBuy – Full-featured **E-Commerce** platform with **product catalog, order tracking, and checkout system**.

SKILLS

Languages: Swift
Frameworks: Swift Ui, UiKit, Combine, Pods, Swift Package, Core data, Swift Data
Third Party Frameworks: Fire base, Google maps, Social Media Integration, Payment Gateways

SKILLS
